Angry Birds 2 MOD APK Angry Birds Rio MOD APK What User's Say About Angry Birds: Love the game...one glitch i'm having issues with is in mighty league wood league on the last game i can't finish. It freezes up & won't do anything. I'm forced to close out the app and restart so i can play regular levels. i am unable to get past that level & move on any further in mighty league. Have tried numerous times to no avail. Even tried restarting phone. So frustrating. Otherwise i love it. Well, seems an excessive amount of ads as well for such a popular game. I played this all the time on my old samsung galaxy tab 3 kids in 2014 and upgraded to reliving the nostalgia on a samsung galaxy A20 in 2020. My point being this game is awesome, addicting, nostalgic (depends on the last time you played), and works on any samsung phone or tablet to exist. Infact, any android os powered device. Aldo works great on ios for ipad AND iphone. Best game ever! Had to come back, I missed it. Still freezes, but still a lot of playing action. Has to do with power ups. Game encourages use then freezes even when I earn them by watching ads. I love this game even so.
